Humming Toy (Pk/48)

PLEASE READ ALL INSTRUCTIONS BEFORE STARTING

YOUR KIT CONTAINS:

- Cardboard Circle
- Markers
- Glue
- Braided Cord

AGE GROUP: 8 and up
PREP TIME: 5 minutes
PROJECT TIME: 30 minutes

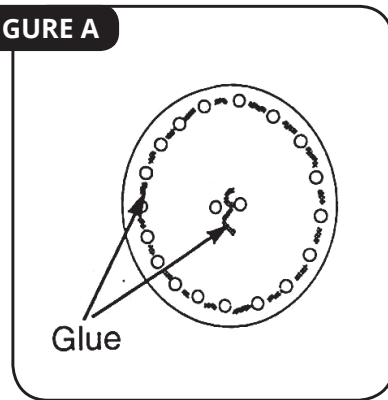

YOU WILL NEED:

- Ruler
- Pencil
- Scissors

INSTRUCTIONS:

1. Place a cardboard circle on your surface, white side facing down.
2. Apply a thin line of glue around the circle between the holes and outer edge. Apply a thin circle of glue around the two center lines (see Figure A).

FIGURE A

3. Center another cardboard circle, brown side down, over the one with the glue. Line up the center holes first, then the outer holes.
4. Press the circles together. Let dry.
5. Using a pencil, lightly sketch your design onto each side of the cardboard circle. Color in the design with markers.
6. Measure and cut a 48" length of braided cording.
7. Thread the two ends of the braided cord through the two center holes of the cardboard circle. Tie the ends of the cords together (see Figure B).

How to Make Your Toy Hum:

1. Move the cardboard circle to the center and loop the ends of the cord over your fingers (see Figure B).
2. Swing the toy in a circular motion until the cord is tightly wound.
3. Unwind the cord by firmly pulling your hands away from each other. Keep the tension even.
4. When the cord is unwound, stop pulling your hands apart and allow the cord to rewind.
5. As the cord is unwound, the holes in the circle will create a humming sound. It may take time to build up enough tension to make the humming noise.
