

## Color-Me<sup>™</sup> Round Pin (Pk/24)

PLEASE READ ALL INSTRUCTIONS BEFORE STARTING

- Make your own cool pin design with markers, colored pencils and stickers (sold separately).
- Pin pops apart for easy insertion of paper shape.
- To make wearing your finished pin easier, pins have a metal pin which can be hot glued in place from the back side of the back piece. This is not necessary but may make it easier to fasten pin to fabric.
- Supervise children when creating pins, which feature functional sharp points.
- If you prefer to display your finished pin, there is a small stand which pops open on the back piece.
