# Maxi-Net Instructions

© Oncourt Offcourt 2008

ASSEMBLY: Connect colors as shown to first assemble the frame. Next, slip the net sleeves over the vertical posts, slightly pushing the posts inwards as needed to ease tension during assembly. Use the Velcro strap to fine tune the tension. The height of the 18-foot wide net quickly adjusts from 30-52 inches. The Maxi-Net is a recommended net for the United States Tennis Association's QuickStart Tennis initiative. It also adapts well for lead-up badminton and even volleyball games using foam balls or beach balls.

Note: Assemble and disassemble the Maxi-Net with ease by leaving the net over the end posts and simply rolling the net up into the carry case. All pole measurements below are lengths before assembly.
