

GYM-I-NEE

Contents

- 3 Poles – Directions and Hardware Included
- 1 Numbered Basket
- 4 Colored Chutes
- 1 Base Cylinder
- Hardware – 19 bolts, 16 nuts and 16 washers for the colored chutes

Directions

1. It is recommended that the “bottom” pole be concreted into the ground – see directions.
2. Using 3 bolts; bolt the “numbered basket” to the “base cylinder”.
3. Bolt the 4 colored chutes (bolt, nut, and washer) to the “numbered basket”.
4. Slide the “middle” pole onto the “bottom” pole until fully compressed and screw together using the supplied hardware.
5. Slide the “GYM-I-NEE” onto the “top” pole (this should be done prior to sliding the “top” pole onto the middle pole)
6. It is recommended that 2 adults slide the “GYM-I-NEE” (with “top” pole attached) onto the “middle” pole until fully compressed and screw together using the supplied hardware.
