

## **Velvet Art Roll-Up Flowers (Pk/96)**

1. Carefully punch the flower template out of the sheet.
2. Color the paper template while flat on both sides. You can use markers, crayons, colored pencils or even paint.
3. Starting with the outside end (with the velvet side up), tightly roll up the spiral holding it between your pointer finger and thumb until you reach the small circular center.
4. Glue your flower into place using the circle center as the base of your flower. Many types of glue will work but we found using a hot glue gun is best for quick and easy results.
