Kit may contain silicone gel packets, which should be removed before use.

**EACH PERSON SHOULD HAVE:**

- 1 Chipwood Box
- Foam pieces: 6 smaller black, 2 larger black and 1 orange triangle
- 1 Paint Brush

The paint, glitter and glue will be shared among the group.

**INSTRUCTIONS:**

1. With the lid placed on the box, lightly trace a line in pencil directly below where the bottom lid edge meets the bottom half of your box. Once you remove the lid to paint your container this line will be a guide; do not paint above this line to avoid the lid getting stuck on once your project is complete.
2. Add a couple drops of water to the white paint to make it flow better. Paint your box and let it dry. Wash and dry your brush.

**TIP:** To dry the box quickly, have an adult dry the painted box with a hair dryer.

3. Use the brush to spread a thin layer of glue onto the top circle of the lid. Immediately sprinkle on a layer of the glitter over the wet glue and shake off the excess. Allow to dry.
4. Last glue the foam pieces to the top of the lid creating your snowman's face! Again allow time for the glue to dry.

**Fun!  
Facts!**

- A snowman is an anthropomorphic snow sculpture.
- In North America, typical snowmen consist of three large snowballs.
- Snowmen are usually built with two spheres in East Asia.
