INSTRUCTIONS:

1. Decide what type of animal you will make. You can create a basic animal as marked on the foam sheets using all one color of foam. Or you can mix things up and create your own imaginary wacky animals!
2. Use the textile makers to color your 4 foam pieces. Remove paper backing from the eyes and press into place.
3. Slot fit your foam pieces together to create your animal as planned. (See our finished sample in color on our website for wacky inspiration)
4. Share as a group and experiment with different body/leg/head combinations! Mix and match as you assemble then unassemble the foam pieces to make endless wacky animal creations!

Fun! Facts! **Amazing Animals**

- Giraffes have blue tongues that average about 20 inches long!
- Lions sleep for about 20 hours a day. It's good to be king of the jungle!
- Despite what you see on holiday TV shows, there aren't any penguins at the North Pole. All penguins live in the Southern Hemisphere.
