

W10581 Foam Chess / Checkerboard Assembly Instructions

Contents: 32 White Foam Tiles and 32 Black Foam Tiles with puzzle fit edges.

Instructions:

1. Remove tiles from box. Align the edges of a black and white tile and snap them together.
2. Repeat the above process to create an alternating grid of black and white tiles to form an 8 x 8 grid.
3. Play chess or checkers with your new jumbo foam board!

Note: For both chess and checkers, the board should be positioned such that a white tile is positioned in the right hand corner of the board (as shown below)
