Kit may contain silicone gel packets, which should be removed before use.

INSTRUCTIONS:

1. Select a design card to paint.
2. Using the brush dipped in water, paint 1 color at a time. Rinse the brush in-between colors.

TIP: Use a generous amount of water so the paint looks washy and less brush strokes are visible.

3. Let your finished card dry on a flat surface so the colors won't run together.
4. Add a pop of color or extra detail to your design with the markers. You can use your brush and a little water to wash over the marker to blend the color. Allow to dry.
5. Once dry, write a favorite camp memory on the back panel for yourself or to share with a friend.

Fun! Facts•

- Summer vacation did not start until the early 19th Century. Depending on the school's location, vacations came either quarterly (town schools) or to coincide with planting and harvest seasons (rural schools).
- Summer camps in the United States date back to the start of the 20th Century.
- Mosquitoes, summer's pest, have been around for more than 30 million years.
