

Chameleon Colors

Safety Data Sheet

Section 1: Identification

PRODUCT NAME: Powdered Chameleon Colors for Social Events (Colored corn starch)

MANUFACTURER'S NAME: Chameleon Companies
ADDRESS: 1636 S 580 E
American Fork, UT, 84003

CONTACT NO: 801-824-8248

Section 2: Hazard Identification

Flammable – Like most organic solids, fire is possible at elevated temperature or by contact with an ignition source.

Potential Health Effects

- Oral Exposure – FD&C and/or D&C approved ingredients. Not intended for consumption.
- Dermal Exposure – May cause slight irritation
- Inhalation Exposure – Slight suffocation.
- Eye Exposure – Eye irritant. Not for use near eyes

Section 3: Composition/Information on Ingredients

Components Corn starch, FD&C approved colors

Chemical Abstracts Service (CAS) number: CAS #9005-25-8. This product is approved as safe for its intended use by the FDA in the applicable sections of 21 CFR

Section 4: First-Aid Measures

Oral Exposures – Drink plenty of water. If a large amount is ingested, consult a doctor.

Dermal Exposure – May cause temporary stain on the skin. Wash skin with soap and water.

Inhalation Exposure – Slight suffocation. Remove patient to fresh air. May cause some irritation, being a dry powder. This product is not identified as an irritant.

Eye Exposure – Remove contact lens if applicable, flush eyes with plenty of water.

Section 5: Fire-Fighting Measures

Flash Point: Not applicable

Explosive Limit:

- **RATING 5: Slight.** Like most organic solids, fire is possible at elevated temperature or by contact with an ignition source.

Extinguishing Media:

- Carbon dioxide, dry chemical or foam recommended. Water spray applicable.

Special Firefighting Procedures: None

Hazardous combustion products: Not applicable

Section 6: Accidental Release Measures

Cleanup procedures in case of spill: Remove from area using scoops into a container for disposal, for water disposal, dispose according to federal, state, and local regulations.

Section 7: Handling and Storage

Ventilation: Store in a cool, dry place.

Respiration: Dust masks are not required, but may be used to ease breathing.

Work Practices: Do not smoke while handling this product.

Section 8: Exposure Controls/Personal Protection

Personal Protection Equipment

Eye Protection: Eye protection suggested

Respiratory Protection: No respiratory protection is required, however dust masks are suggested

Ventilation: none

Protective Gloves: None required

Engineering control: None

Exposure Controls: None

Work/Hygienic Practices: None

Other protective clothing: None
or equipment: None

Section 9: Physical and Chemical Properties

Appearance: Dry powder, color varies by product

Physical State: Solid

Odor: varies by product

Solubility: Varies

Dust deflagration index (explosive potential): under investigation

Flammability Class: 5

Section 10: Stability and Reactivity

Chemical Stability: Stable under ambient conditions.

Hazardous Decomposition: None

Incompatibility: None

Possibility of Hazardous Reactions: Hazardous when dispersed in air and exposed to an ignition source. Can cause explosions if enough energy is available.

Section 11: Toxicological Information

Short term exposure may cause skin or eye irritation. No information is available on long term effects.

Section 12: Ecological Information (non-mandatory)

Section 13: Disposal Considerations (non-mandatory)

Section 14: Transport Information (non-mandatory)

Section 15: Regulatory Information (non-mandatory)

Section 16: Other Information
