INSTRUCTIONS:

- a. Choose your design and paint colors.
- b. Choose from our painting ideas below or use your imagination for decorating your binoculars. You may want to use a pencil to outline your design first.
- c. Let paint dry for 20 minutes before handling or opening and closing binoculars. When painting, be careful to avoid getting paint on viewing lenses.

PAINTING IDEAS:

Spatter Painting: Dip the paint brush into a paint color and, with a flick, splash paint onto the surface.

Sponge Painting: Create a textured look by sponge stamping. Using scissors, cut out small shapes from a household sponge. Using dampened sponge shapes, brush paint onto the surface. Press painted side down, onto the binoculars.
