Color-Me™ Felt Petal Basket (Pk/12)

PLEASE READ ALL INSTRUCTIONS BEFORE STARTING

1. Thread the needle with the cord, making sure that you only double knot 1 end of the cord (the other end will be loose).

2. Prepare basket panels for sewing: fold each panel towards the center of the basket from the base.

3. Sew on 1 end of handle: Take the handle piece and line up the holes with the holes on 1 basket "panel" on the inside of (what will be) the basket. Sew through 1 set of holes. Pick up the next panel on the basket and sew through the next handle hole and the 2 panels, overlapping the panels.

4. Sew the panels in an *"in-out-in-out"* pattern. Take 2 panels and overlap at the holes close to each other. Sew the cord *out* through the overlapped hole. Overlap the next panel closest to the open hole of the first panel. Sew cord *in* towards the center of the basket.

5. Continue to overlap each new panel and sew cord in and out of panels. Remember to sew on the 2nd side of the handle - refer to step 3.

6. When all panels have been sewn together, tie a double knot close to the last hole. Cut cord off.

⚠ **WARNING:**
CHOKING HAZARD - *Small parts.*
Not for children under 3 years.
