

Felt Flower Spirals (Pk/96)

1. Carefully punch the flower template out of the sheet.
2. Starting with the outside end, tightly roll up the spiral holding it between your pointer finger and thumb until you reach the small circular center.
3. Glue your flower into place using the circle center as the base of your flower. Felt glue or glue dots will work but we found using a hot glue gun is best for quick and easy results.
