1.1

**Stain Glass Jars (Pk/12)**

PLEASE READ ALL INSTRUCTIONS BEFORE STARTING

**YOUR KIT CONTAINS:**

- Jars
- Simulated Lead
- Permanent Markers

**YOU WILL NEED:**

- Scrap Paper
- Pencils

**EACH PERSON SHOULD HAVE:**

- A jar with lid

The simulated lead and markers will be shared among the group.

**AGE GROUP: 8 and up**

**PROJECT TIME: 45 minutes + dry time**

**PROJECT INSTRUCTIONS:**

1. Decide what kind of design you would like to have on the jar.  
You may use one of our designs or create your own.

**TIP:** While painting the jar's surface, try to handle only the inside neck of the jar.

2. Sketch your design outline using the scrap paper and pencils.
3.
  - a. Practice drawing a few lines using the simulated lead. Hold the bottle nozzle 1/4" above a piece of paper and move hand in a smooth motion. Be sure your wrist is not resting on work surface as you move your hand.
  - b. When you feel you have practiced the technique enough, begin to draw your pattern on the jar.
  - c. Set jar aside to dry.
4.
  - a. Fill in sections of simulated lead outlines using the permanent markers. Be sure the marker goes up against the lead outlines so no empty spaces show.
  - b. For more intense colors, apply another coat when the first coat is completely dry.
