GP3106

EACH PERSON SHOULD HAVE:

- 1 Sheet Cardboard Dinosaur Parts
- 2 Wiggly Eyes
- The glue will be shared among the group

PREPARATION INSTRUCTIONS:

You can decorate your cardboard dinosaurs before or after assembly. We have found acrylic paint to be the best, and in a time-crunch, washable markers are perfect. You can use whatever supplies are available. Once assembled and dry, your dinosaur should be self-standing for added play value.

INSTRUCTIONS:

Punch out all the pieces from the cardboard sheet.

TIP: Refer to the finished photo for assembly.

1. Start with the body and glue the 2 large shapes together, being careful to match up the outside edges.
2. You should have 2 medium sized body/belly shapes. Glue one to each side of your dinosaur lining up the edges of the tail.
3. You should have 4 leg shape pieces remaining; the 2 larger pieces are the back legs and the smaller ones are the front legs. One side at a time, glue the legs in place using the image of the finished product as reference for placement. Let dry.

TIP: It's helpful to gently stand your dinosaur in place while the glue is still wet, to get the legs even so the dinosaur stands straight.

4. Glue the wiggly eyes to both sides of your dinosaurs' face. Let dry and you're done! What will you name your new dinosaur friend?
