GP2118

INSTRUCTIONS:

Note: The markers included in this kit are watercolor markers. Coloring the small wood beads is fun, but messy. Wash hands after coloring the beads.

1. Choose any design to color your leaf bead and the small wood beads.
2. Allow a few minutes for the ink to dry.
3. Cut the cord into 18 inch lengths for each necklace.
4. Fold the cord in half and string the folded end through the hole in the leaf bead. This will make a loop. Thread the ends of the cord through the loop and pull down to make a knot holding the leaf.
5. Now you are ready to thread the small wood beads onto the cord. If you want your wood beads to stay slightly apart on the cord, make a knot in the cord between each bead, before threading on the next bead.
6. Adjust the length of the cord to fit, tie a knot in the ends, and cut off any excess cord.
