Holiday Ornament Craft Kit (Pk/72)

PLEASE READ ALL INSTRUCTIONS BEFORE STARTING

YOUR KIT CONTAINS:

- Foam Balls
- Glitter Foam Squares
- Paper Fasteners
- String
- Paint
- Brushes
- Glitter pins
- Self-Adhesive Felt Sheets

YOU WILL NEED:

- Paper Towels
- Scissors
- Cups of Water
- Paper Plates (optional)

AGE GROUP: 8 and up
PROJECT TIME: 30 minutes

EACH PERSON SHOULD HAVE:

- 1 Foam Ball
- 1 Paper Fastener
- 1 Piece String 6" Long
- 1 Brush

The paint, glitter foam squares, glitter pins and felt will be shared among the group.

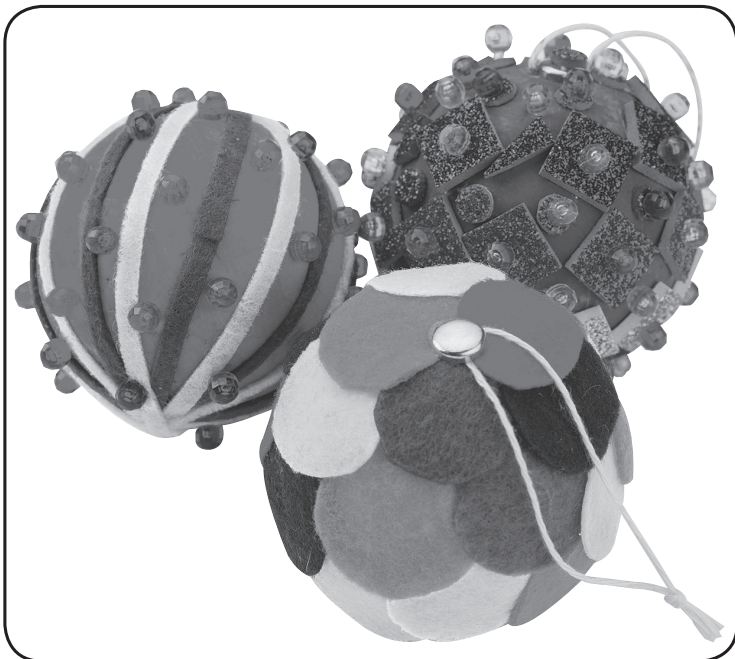

PREPARATION INSTRUCTIONS:

1. Precut enough string for each person to have one 6" piece.
2. We recommend cutting the self-adhesive felt into shapes (circles or strips) ahead of time.

INSTRUCTIONS:

NOTE: This kit is designed to create 72 unique ornaments. There is plenty of each material and you may have extra material left over. Be creative!

Here are some basic steps if you'd like to create ornaments similar to the ones shown here:

**GLITTER PIN ORNAMENT**

1. Paint your foam ball any color and let dry.

TIP: To speed up drying time, have an adult dry the ball with a hair dryer.

2. Select squares of glitter foam and decide if you want a pattern. Peel off the paper backing and adhere the glitter foam squares to the painted ball.
3. Add glitter pins for extra sparkle!

FELT ORNAMENT

NOTE: You will need to have cut circle shapes of felt for this ornament.

1. Starting at one point on the ball, peel and stick the circles, overlapping the edges with the next circle. Repeat until ball is covered and you do not see any of the foam ball. Refer to finished photo as needed.

PAINTED AND FELT ORNAMENT

NOTE: You will need to have cut thin strips of felt for this ornament.

1. Paint your foam ball any color and let dry.
- TIP:** To speed up drying time, have an adult dry the ball with a hair dryer.
2. Select thin strips and peel and stick the strips vertically on the foam ball.
3. Add glitter pins for extra sparkle!

ADDING THE HANGER TO THE ORNAMENT

1. Once you are done creating your ornament, take the piece of string and fold in half. Tie a simple overhand knot at the end to make a loop.
2. Take the paper fastener, position it in-between the loop on the and press carefully into the foam ball. This will secure the loop on to the top of your ornament (see photo for reference).

Fun! Facts! Winter "Wonder" Land

- Did you know that all snowflakes have 6 sides?

Hot water freezes faster than cold. The "Mpemba effect" was named after a Tanzanian student who discovered that a hot ice cream mix freezes faster than a cold mix in cookery classes in the early 1960s (though the effect has been noted by scientists throughout history including Aristotle, Francis Bacon and René Descartes).

- 10 inches of snow melts to only 1 inch of water.
