INSTRUCTIONS:

This coloring project has a raised textured surface in the areas to be colored. These textured areas make it easy to touch and feel the places that should be colored. The markers take a couple minutes to “set” and dry. You can use this time to blend other markers colors into your design for added detail or colors!

We recommend starting at the top of the design, color using the markers provided. Remember it takes a couple minutes for the markers to set. Be careful not to rub the colors with your hands while they are wet.

Fun! Facts! **Unplug and Play**

- Kids ages 8-18 spend an average of 7 hours and 38 minutes in a typical day using entertainment media, according to the Kaiser Family Foundation. That's more than 53 hours a week!
- In an average week, only 6 percent of children ages 9-13 play outside on their own, according to the Children & Nature Network.
- Think about some ways you can be “unplugged.” Take a walk and explore, make nature “prints,” play games or listen for birds!
