

Boris The Bat (Pk/24)

PLEASE READ ALL INSTRUCTIONS BEFORE STARTING

YOUR KIT CONTAINS:

- Scratch Art Bat Wings
- Self-Adhesive Felt Shapes
- Self-Adhesive Wiggly Eyes
- Silver Cord
- Wood Scratch Tool

YOU WILL NEED:

- Scissors (optional)

For your convenience, each project is individually packed.

AGE GROUP: 6 and up

PROJECT TIME: 20 minutes

INSTRUCTIONS:

1. Use the wood scratch tool to create a design on the scratch paper bat wings. Keep in mind that the felt wing shape will cover some of your design. Carefully brush off any excess black dust.
2. Knot the two ends of the silver cord together to form a loop for hanging. Then sandwich the loop between the scratch art wings and sticky felt wing shape (remove paper backing) in the center of the wings at the top. See image of finished sample for placement. Cut off any long/frayed ends on the cord if needed.
3. Next, remove the paper backing from the felt bat body and carefully stick to the center of the scratch art/felt wing (some of the adhesive may be exposed when the project is complete). Again, see image of finished sample for placement.
4. Next, remove the paper back and put the felt head shape on the body and add the eyes.
