GP3358

EACH PERSON SHOULD HAVE:

- A Screw-top container
- 12 each of white and blue star beads
- “Puff” of polyfill about as large as your hand

The glitter and liquid watercolor will be shared among the group

INSTRUCTIONS:

1. Add all the “dry” ingredients to the empty container starting with the polyfill, then add approx. ½ teaspoon of glitter on the polyfill and finally add the star beads.
2. Next add 2 drops of liquid watercolor.
3. Lastly, fill with water, screw the cap on tightly, and gently shake!
Watch as the glitter sparkles and the stars swirl around.

Note: When you add the water, the polyfill will puff up a bit, then settle in the container. You can add a little more polyfill if you want. Also, the container will not leak as long as you don’t squeeze it. If you feel that that may happen, run a thin bead of glue around the inside of the lid before screwing it on. Let that dry.

Random Acts of Kindness Challenge:

Can you do a small act of kindness each day for a week? It could be as small as opening and holding a door, smiling and saying good morning, or helping (without being asked) around your house. What can you do in your corner of the world to make it a better place for others?
