GP3359

**EACH PERSON SHOULD HAVE:**

- A pin design
- Pin back and 1 strip of adhesive foam

The glass stain tubes will be shared

Optional Preparation: Squeeze a little of each color of glass stain onto paper plates. Put toothpicks out near plates.

**INSTRUCTIONS:**

1. Each person should choose a pin design and place it on a piece of scrap paper.
2. Using the glass stain tubes, carefully squeeze the color you'd like for a section of the pin. Use the toothpicks to carefully move the stain into the corners of the pin section and pop any air bubbles. Use toothpicks to pick up small drops of the glass stain off the paper plate and add to your design if you want.
3. Carry the finished design on the scrap paper, to an undisturbed spot and let dry.

**Note:** The drying time of the glass stain varies depending on how thickly it is applied. We recommend allowing 2 hours for drying.

4. Peel and stick 1 side of the adhesive foam across the flat side of the pin back. Peel and stick the other side of the foam to the back of your pin, carefully pressing it into place.

**Random Acts of Kindness Challenge:**

Can you do a small act of kindness each day for a week? It could be as small as opening and holding a door, smiling and saying good morning, or helping (without being asked) around your house. What can you do in your corner of the world to make it a better place for others?
